Notes:

I arrived at the rest area around 1:44 p.m. the weather was 21 °F, with wind from the northwest at nine miles per hour. The company was currently working on repairing the pipeline. Found crack through testing of pipeline. The impacted soil was placed on plastic and was covered, around ten yards was excavated. They are waiting on classification of the soil; the soil will be hauled out Thursday or Friday. No further follow-up needed at this time. 48.279000; - 99.304500
